ABOUT US

We've Been in Business Since 1981

We've really gotten to know the area well, too. We've been at the same location, here in the heart of the D/FW metroplex, since 1985. We've worked since that beginning on building our business around a few sound principals.

Our delivery is always on time. We work hard up front to make sure there is plenty of time to get your order to you when you need it.

We have competitive prices. Other companies tend to charge more for a product of our quality.

And that quality is outstanding. We love what we do, and we put a great amount of effort into bringing you a great product. Not just to please you, but because we enjoy it too.

Many places have a strong product, but they're not always easy to talk to. We pride ourselves on our excellent customer service.

We promise you'll enjoy our product as much as we enjoy making it. You'll also have a great experience working with our team. You can depend on us to bring you what you need, when you need it.

Satisfied Customers

GET A QUOTE ONLINE

Request for a Plastic Mold Quote

Looking for a quote for your next plastic mold? [Request a plastic mold quote by filling out our form online](#) with as much detail as possible. A representative will contact you within 24 hours. Please include your drawing file if you have one available. You can also contact us by phone at **817-882-9595**. We'll assess your injection molding needs, analyze your drawing files, and give you an estimate in a timely manner.

In order to receive an estimate as quickly as possible, have the following information prepared before you submit your request:

- Your Project Details
- Your Part Name
- Your Part Number
- Your Drawing file
- Your Part's Approximate Weight
- Your Part's Overall Dimensions
- Your Anticipated Annual Quantity

Give us a call, let's start a long-term relationship

Our experience has proven that as we provide you with a quality product that meets, and often exceeds, your standards – superior plastic products that are delivered on-time and at a competitive price – you too will have reason to trust us as a partner in your business, joining the many others in a long-term, interactive and productive relationship. Our team looks forward to the opportunity to serve and share with you in our commitment to excellence.

OUR SERVICES

Plastic Mold Building

Designers come to us with ideas that they have thought up. Sometimes, we get an actual model, and they have worked out every single detail of their product. Other times, the design is still an idea, and they come to us with a drawing that will need a little work on our part. Our years of experience working with diverse client means we are able to take even the most basic design idea from our customers and make it into a quality product.

Plastic Injection Molding

Equipment that meets high demand with dependable manufacturing excellence is essential to providing products that are accurate to specifications. With this in mind, Superior Plastics acquires and maintains injection molding machines that perform under all pressures and demands. Our machines can handle exacting standards that arise with material drying, cavity pressures and cavity temperatures. We utilize calibrated test equipment as well as a diverse collection of injection molding machines including:

[400 Ton Toyo](#)

[300 Ton Van Dorn](#)

[115-220 Ton Cincinnati](#)

[85 Ton Electric Cincinnati](#)

[42 Ton Arburg](#)

[20 Ton Blow Molding Press](#)

We are capable of short runs, engineering setups, mold tests, multi year, multi machine runs, quick turn, JIT delivery, warehousing, SPC, [ISO 9000-2008 quality system](#), and many others.

OUR SERVICES

Drop Shipping & Private Labeling

Let us be your expert. If you have the customers, but need some help with the product, we have a couple of options for you. Superior Plastics has been in business since 1981 and has the team and experience to handle all of your [drop shipping](#) and [private labeling](#) needs.

With our facilities and expertise. We can [build your plastic mold design](#), and ship it for you under your name. When you don't have the capabilities to produce large quantities of your product, we can take care of that for you, and put your label on it. We can even do this for specialized products. This will cut down on your cost, and maximize both your profit, and the time you're able to spend on other matters.

In addition to branding your own products, you can tell your customers that your product is manufactured in the U.S.A.
